

2nd WES Steering Committee Meeting

23 November 2020 | on-line

**Water and
Environment Support**
in the ENI Southern Neighbourhood region

The WES DEMO projects and support to be provided by the WES

Presented by:

Suzan TAHA, WES Key Water Expert

Framework of WES Support to the DEMO Projects

**Water and
Environment Support**
in the ENI Southern Neighbourhood region

**The Call for Proposals
Europeaid/163
941/DH/ACT/Multi
Demonstration Projects
on Efficient Use of Water**

7

**Demonstration
(Demo) projects
selected for
contracting**

3

**Demo projects from
previous phase
launched in 2016**

**Their activities
either ended or are
at the final stage of
implementation.**

2020 Demos on Water Use Efficiency

2020 Demos on Water Use Efficiency 1/3

C2: Water

Project name	Lead applicant	Aim	Country	Duration months	Budget EUR
Gaza H2.0: Innovation and water efficiency.	We World – GVC Onlus	Reduce water losses in the supply system of Khan Younis Municipalities in the Gaza Strip. → Increase the availability of water through the application of sensor- and analytic-based approaches and improve the water resources management through Smart Water Networks pilots	Palestine (Gaza Strip)	36	1M
Enhance the resilience of vulnerable communities through efficient water solutions and addressing climate change in the Eastern area of Khan Younis in the Gaza Strip	Stichting Oxfam Novib	Strengthen water resource management through an innovative water management model for agriculture in the Gaza Strip. → implement a new Treated Wastewater Re-use (TWWR) system linked to recovery wells around the TWWR infiltration basin. Disseminate smart agriculture best practices adapted to the Climate Change	Palestine (Gaza Strip)	36	1M
WISPER – Efficient Innovative Solutions Portfolio for Enhancing Resilience	ICU (Istituto per la Cooperazione Universitaria)	Identify, test and showcase a portfolio of innovative technical and institutional solutions , at different maturity stages, related to the efficient use of water	Jordan Tunisia	30	1M

2020 Demos on Water Use Efficiency 2/3

C2: Water

Project name	Lead applicant	Aim	Country	Duration months	Budget EUR
ValEUr Gabes: Valorisation of urban water through innovative actions and instruments	Area Metropolina de Barcelona (AMB)	Develop the capacity of Tunisian cities to cope with the impacts of climate change by using rainwater in urban areas . Demo activities will be carried out at the level of the city of Gabes and broadcasted in Tunisia and in other similar contexts in the region.	Tunisia (city of Gabes)	30	0.64M
Innovative irrigation systems in the Sahrawi refugee camps in Tindouf (south-west of Algeria)	Oxfam Solidarity	Increase the efficiency of water use with <u>innovative irrigation systems</u> to strengthen agricultural production in refugee camps.	Algeria	30	0.62M
Promotion of integrated water resource management in an oasis environment: Oasis of Ferkla and Aguinane	Association des Enseignants des Sciences de la Vie et de la Terre au Maroc (AESVT)	Promote innovative approach to the efficient and sustainable management of water resources in an environment of climate change through the deployment of two pilot cases of integration of the principles of Integrated Water Resources Management in territorial strategic planning for the oasis of Ferkla and Aguinane	Morocco	36	0.7M

2020 Demos on Water Use Efficiency 3/3

C2: Water

Project name	Lead applicant	Aim	Country	Duration months	Budget EUR
Saving Water, Growing Cops: Remote-controlled irrigation systems to address water scarcity and promote preservation of available freshwater resources	OIKOS	The project aims at promoting the transfer and adoption of the precision irrigation solution on water-use efficiency linked to sustainable irrigation and crop production in the Shouf Biosphere Reserve.	Lebanon	36	0.99M

WES Role 1/3

Part of the WES mission is to monitor and disseminate innovative approaches and successful practices in the field of efficient use of water.

WES will

1.

Perform external monitoring of the demonstration projects' progress in order to make recommendations that can improve their effectiveness, efficiency, sustainability and impact;

Undertake soft monitoring of Demo projects by a network of 6 local NKEs (located in each of the Demo countries: Palestine, Algeria, Morocco, Jordan, Lebanon, Tunisia) under the guidance of two monitoring international NKEs

WES Role 2/3

WES will

2. Provide targeted ad hoc technical assistance (TA) promoting Demos objectives

TA to be provided based on the needs and findings spotted by WES monitoring action or upon a request (subject to availability of human resources);

3. Ensure potential synergies and complementarities between the Demo projects and WES national and regional activities

Invite Demos to participate in

- ✓ WES regional capacity building events,
- ✓ Steering Committee Meetings,
- ✓ national meetings or other events of the countries

4. Strengthen the interaction between Demo projects and other stakeholders

WES will

5.

Support demonstration projects to provide effective communication and visibility and increase their actions' out-reach

- ✓ Organise brainstorming event bringing together old & new Demos
- ✓ Assist in developing Replication Manual addressing potential adopters of the proposed solutions
- ✓ Formal communication and visibility training
- ✓ Support the Demos to design/implement their own communication strategies, adhering to EU rules on communication and visibility.
- ✓ Disseminate knowledge on the results of the Demo projects (current and previous phases projects),
- ✓ Create diaries to inform stakeholders/potential adopters about implementation process and the challenges and to raise awareness about the Demo project.

**Water and
Environment Support**
in the ENI Southern Neighbourhood region

The team

2
**international
Non-Key experts**

6
**local Non-Key
Experts:**

1 NKE for Algeria, 1 NKE for
Palestine, 1 NKE for Tunisia, 1NKE
for Jordan,, 1 NKE for Morocco and
1 NKE for Lebanon

1
**international WES
technical liaison Non-
Key Expert**

**Assistance of
the Key-Expert – 4,
Communication &
Networking**

Thank you for your attention!
