

**Regional training on Water Demand Management**  
**Activity No.: RW-3-REG**  
**Training Module 5: Implementing WDM (Part II)**  
**17 February 2022**

**Kahoot! multiple-choice quiz – correct answers**

1. What indoor water use component requires most water?
  - Dish washer
  - Drinking water
  - **Showers and baths**
  - Taps
  
2. Water demand forecasts should balance:
  - **Accuracy & Complexity (Précision & Complexité)**
  - Accuracy & Correctness (Précision & Exactitude)
  - Industry & Tourism (Industrie & Tourisme)
  - Urgency & Transparency (Urgence & Transparence)
  
3. How are water savings achieved worldwide (% through regulation and policy/ % through active conservation measures??)
  - 30%/70%
  - 40%/60%
  - **50%/ 50%**
  - 60%/40%
  
4. What is **not** an opportunity that “benchmarking” presents?
  - **Awareness raising**
  - Identification of strength and weaknesses
  - Knowledge sharing
  - Management improvement
  
5. Reducing shower time by 4 min can save up to 80 litres of water.
  - **True**
  - False
  
6. What is **not** part of the four dimensions of water culture?
  - **Adaptable**
  - Affective
  - Cognitive
  - Conative
  
7. The increase of water demand following improvement of efficiency is called:
  - Iceberg theory
  - Nexus effect
  - Prisoners’ dilemma
  - **Rebound effect**

## Water and Environment Support

in the ENI Southern Neighbourhood region

8. Elements that we should think of when designing a campaign are:

- Control and educate
- Design, support, and educate
- **Design, support, educate, and control**
- Support, educate, and control

9. What is the daily peak flow for drinking water demand in the Aguinane oasis in m<sup>3</sup>/day?

- 25 m<sup>3</sup>/day
- **204 m<sup>3</sup>/day**
- 508 m<sup>3</sup>/day
- 896 m<sup>3</sup>/day

10. A nudge makes it more likely that an individual will make a particular choice.

- **True**
- False

11. What is the purpose of pilot questionnaires?

- Breakdown of water uses and efficiency measures in place
- Exact water use in each household
- **Rough water use and attitudes towards water use efficiency**
- Total amount of water each household uses

12. Cultural Mapping does not help to integrate values in WDM decisions.

- True
- **False**

13. Nexus approaches can help decision-making for WDM?

- **True**
- False

14. How short is the Roe River, the shortest river in the world?

- **61 metres**
- 102 metres
- 520 metres
- 1,000 metres
