Demolition Waste (C&DW)**

Activity No: RE-4-REG/ST/P2P

2nd Meeting: Thursday, 16th of June 2022

11:00 – 12:30 CET

COMPONENT	Component 1 (Environment)
WES TOPIC	Circular Economy Prevention and reduction of pollution reaching the Mediterranean from specific industrial sectors
WES SUBTOPIC	Waste management schemes and streams Promoting PPP & Access to sustainable investment
DIMENSION	Technical Assistance and capacity Building

1 BACKGROUND

The **specific objectives** of the P2P activity, which involves direct exchange of experience between and among Peers from relevant institutions in the WES Partner Countries and beyond, are:

- Sharing knowledge among Peers on challenges related to CDW
- Sharing expertise on solutions to manage and reduce CDW
- Boosting south-to-south (and north-south) cooperation
- Building lasting relations and exchanges

The P2P activity is composed of **three phases** where the Peers interact, share, and receive training and expert advice at different stages. Phase 1 is conceived to set the foundation, define the content and type of interactions to be developed in the phases that will follow. Phase 2 is linked with the participation of the Peers in the Study Visit and Workshop, and Phase 3 is a follow-up post-training period. During these phases, Peers will receive coaching and expert advice on the CDW topic. They will also have the opportunity to interact, learn from each other, share experiences, and build a regional peer support network in relation to CDW. More details are in the **Concept Note** of the P2P.

1st Meeting was organized on Thursday, 7th of April 2022 and aimed at introducing all the participants (Peers, Experts, etc.) and consolidating the workplan, roles and expectations.

The purpose of this **2nd virtual meeting of the P2P exchange** is to enhance discussion among Peers on several issues related to C&DW and introduce the host and the envisaged structure of the Study Visit to be held in September 2022.
