

Regional Activity on Management of C&DW

P2P Exchange – 2nd Meeting

“P2P process”

16th of June 2022

Virtual meeting

Presented by: Danko Aleksic, WES Non-Key Expert/ACR+

Overall aim

**Water and
Environment Support**
in the ENI Southern Neighbourhood region

- The P2P activity will provide technical assistance and strengthen the capacities of appointed Peers from the WES PCs to elaborate and implement effective measures to reduce the environmental impact of CDW and maximize the sustainability of CDW management.

Specific objectives

- The P2P activity, which involves direct exchange of experience between and among Peers from relevant institutions in the beneficiary countries and beyond, has the following objectives:
 - sharing knowledge among Peers on challenges related to CDW
 - sharing expertise on solutions to manage and reduce CDW
 - boosting south-to-south cooperation
 - building lasting relations and exchanges

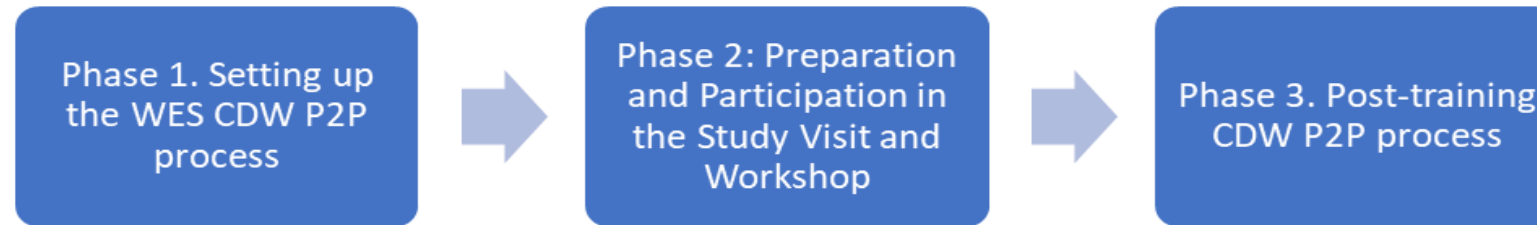

Phases of P2P activity

**Water and
Environment Support**
in the ENI Southern Neighbourhood region

The activity is composed of three phases:

Phase 1: needs assessment (outlook and challenges of CDW management in Peers countries), knowledge and good practices exchange

Phase 2: participation in the SV and Workshop

Phase 3: follow-up in the post-training period

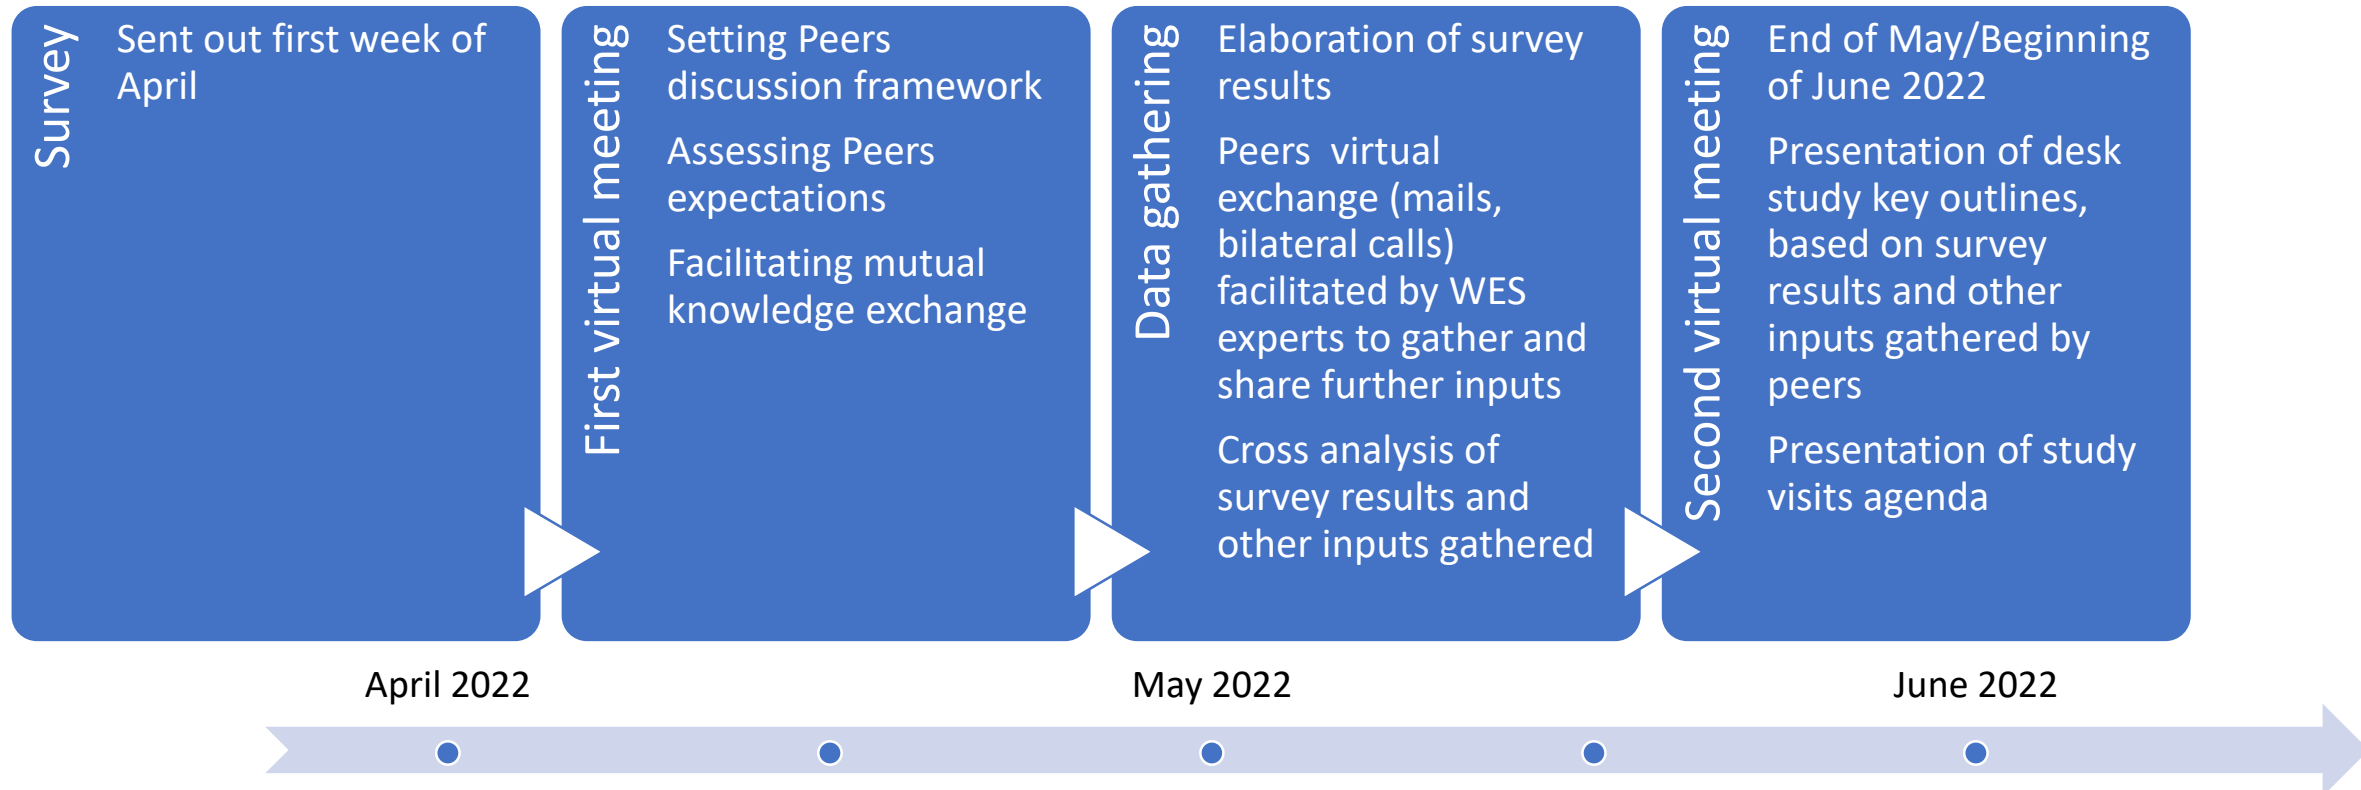

During the phases Peers will receive coaching and expert advices on the CDW topic and will have opportunity to interact, learn from each other and build a regional peer support network.

Phase 1: Setting up the P2P process

Water and Environment Support
in the ENI Southern Neighbourhood region

Phase 2: Preparation and participation in SV and WS

Water and Environment Support
in the ENI Southern Neighbourhood region

- Peers feedback on desk study outlines
- Preparation of SV WS (finalization of the agenda, Peers expectations, first contacts with hosting organizations...)

SV and WS

- Visits to facilities for the storage and recycling of construction and demolition waste
- Peers workshop, presentation and discussion of the regional/municipal strategy for construction and demolition waste

July 2022

August 2022

September 2022

Phase 3: Post-training P2P process

**Water and
Environment Support**
in the ENI Southern Neighbourhood region

- Integration of SV and WS results in the Desk Study
- Peers review and comments to the Desk Study
- Final virtual meeting (optional) and presentation of finalized Desk Study

September 2022

October 2022

What is the expected role of the Peers?

**Water and
Environment Support**
in the ENI Southern Neighbourhood region

- Provide information on CDW issues in their countries
- Specify particular interest on specific challenges to be tackled
- Participate in virtual meetings
- Exchange actively with other Peers and the Coach
- Channel inputs from SHs across the CDW management field in their country, and channel back the results of P2P process
- Contribute to preparation of the SV and WS
- Participation in the SV and WS
- Provide feedback to documents/processes

Envisaged structure of the Desk Study

**Water and
Environment Support**
in the ENI Southern Neighbourhood region

- Introduction – overview of the present situation
- Short overview of the results of the Survey
- Good Practices identified (input from the Peers)
- Bottlenecks – cross analysis of GPs
- Recommendations (to be finalized after the SV)
