- This three-days consultation workshop aims firstly to *consult the competent authorities* about the updated Master Plan and the conclusions made. This is the subject of today
- Secondly it aims to provide a *two-days training program* to the key stakeholders involved in health care waste management in Palestine with respect to the updated Master Plan.
- This training program is based on the *previous outputs* of this project, including the updated Master plan (task 2) as well as stakeholder consultation meetings (task 4)

- The invited target groups for this training are staff from health care centers, waste collectors, treatment/disposal plants workers and other related operational staff in health care waste management , civil based organizations) will be carried out.
- The Training Program focuses on the updated Master Plan, as well as the Road map forward and the contingencies plans that have been developed and discussed previously
- The objective of this training is to make all key operational in health care waste management aware of the main elements of the Master Plan, including the proposed Road Map and proposed emergency measures.
